

**JOINT COMPANY ANNOUNCEMENT**  
Invitrocue Ltd (IVQ) and Welala Co Ltd

**INVITROCUE ANNOUNCES ACQUISITION OF WELALA TO  
CREATE LIFE SCIENCE LEADERSHIP IN THAILAND AND  
ASEAN**

**Summary**

- This strategic acquisition will significantly expand InvitroCue's product portfolio and global reach, solidifying its position as a key player in the life sciences industry.
- Welala's advanced technologies and expertise in genomic, cell biology, medical oncology research aligns perfectly with InvitroCue's commitment to providing researchers with the tools they need to drive scientific discovery.
- By combining forces, InvitroCue will be able to offer a more comprehensive suite of solutions to meet the evolving needs of its customers.

23 September 2024: InvitroCue, a leading provider of innovative life sciences solutions, today announced the acquisition of Welala, a renowned company specializing in cutting-edge technologies for personalized healthcare at DNA levels right at home.

By combining their expertise, resources, and market reach, Welala and InvitroCue will be able to:

- Accelerate innovation: Drive the development of cutting-edge solutions that address critical industry challenges.
- Expand footprint: Serve a wider customer base and tap into new markets, leveraging each other's international presence.
- Enhance product offerings: Offer a more comprehensive suite of products and services to meet diverse customer needs.
- Achieve significant cost synergies: Realize operational efficiencies and optimize resource allocation.
- Strengthen financial position: Create a more stable and resilient business, attracting increased investor interest.

#### **About Welala**

Making Health and Wellness accessible for Everyone, Everywhere, at Any time.

WELALA provides home-based diagnostic kits for people who want to take control of their health and well-being more effectively.

Welala started out by providing at home DNA testing service and we then expanded in to diagnostic and longevity test.

This will allow everyone to know more about their health condition in more detail and take a next step.
